Report of Certified Public Accountant on internal accounting control

Form X-17A for the twelve months ended December 31, 2008

Peter D. Finch

An Accountancy Corporation

The Proprietor
J.V. Delaney & Associates
Corona Del Mar, California

I have audited the accompanying balance sheet of J.V. Delaney & Associates (a proprietorship) as of December 31, 2008, and the related statements of operations and proprietor's capital and cash flows for the year then ended. These financial statements are the responsibility of the company's management. My responsibility is to express an opinion on these financial statements based on our audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that our audit provides reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of J.V. Delaney & Associates (a proprietorship) as of December 31, 2008, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles.

My examination has been primarily for the purpose of expressing an opinion on the financial statements, taken as a whole. The accompanying additional information is presented for analysis purposes and is not necessary for a fair presentation of the financial information referred to in the preceding paragraph. It has been subjected to the tests and other auditing procedures applied in the examination of the financial statements mentioned above, and in my opinion, is fairly stated in all respects material in relation to the financial statements taken as a whole.

February 24, 2009

Peter D. Finch, An Accountancy Corporation

| | \$ 33,067 |

NOTES TO FINANCIAL STATEMENTS

December 31, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

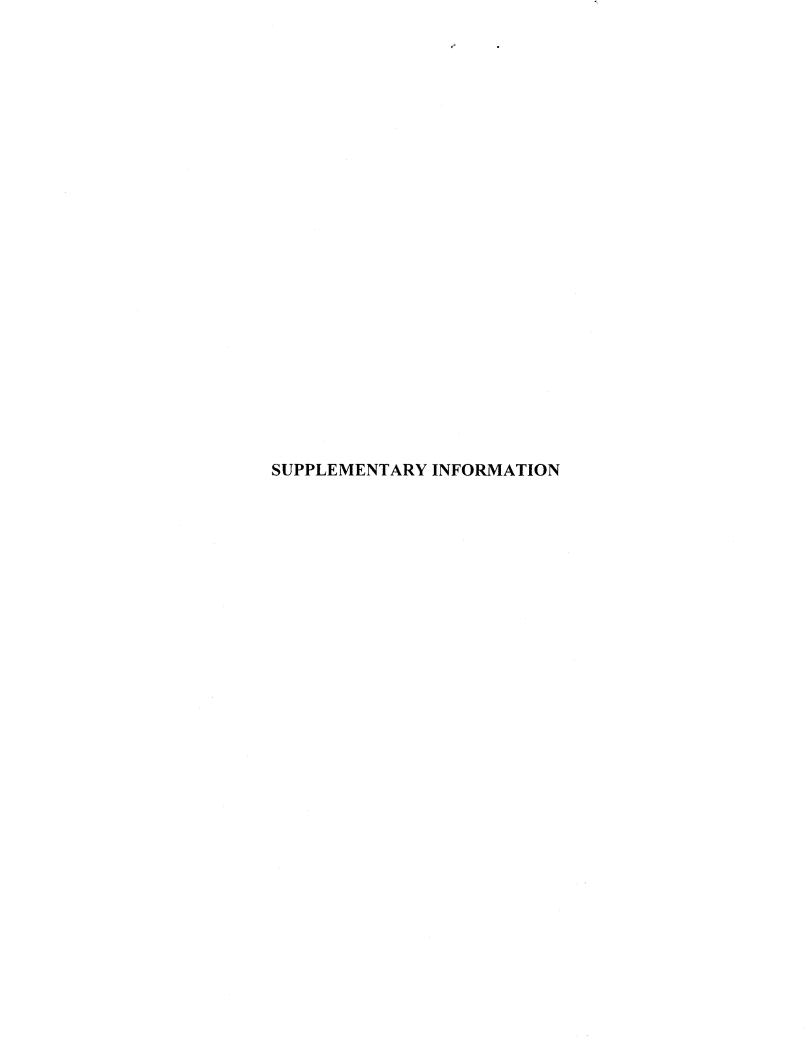

J.V. Delaney & Associates (the "Company") a proprietorship is a registered broker-dealer acting as an investment banker and financial advisor to public and private companies. The Company's financial statements are presented in accordance with generally accepted accounting principles.

Property and Equipment

Depreciation of furniture and equipment is provided on the straight-line method over the estimated useful lives of the related assets down to a residual salvage value approximating ten percent.

Income taxes

The proprietorship itself is not a taxpaying entity for purposes of federal and state income taxes. Federal and state income taxes of the proprietor are computed on his total income from all sources; accordingly, no provision for income taxes is made in these statements.

COMPUTATION OF NET CAPITAL

December 31, 2008

| Proprietor's capital | \$ 32,508 |
|---|-----------|
| Less: Non-allowable assets | (14,816) |
| Net capital before haircuts on exempted investment securities | 17,692 |
| Minimum net capital requirement | (5,000) |
| Excess net capital | \$ 12,692 |

The above computation agrees with computation filed by the proprietor from Par IIA on Form X-17A-5.

Peter D. Finch

An Accountancy Corporation

The Proprietor
J.V. Delaney & Associates
Corona Del Mar. California

In planning and performing my audit of the financial statements and supplemental schedules of J.V. Delaney & Associates (the Company) for the year ended December 31, 2008, I considered its internal control, including control activities for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC). I have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that I considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to eustomer securities, I did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons
- 2. Recordation of differences required by rule 17a-13
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with general accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred

to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under the standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by the employees in the normal course of performing their assigned functions. My study and evaluation of the Company's internal controls was limited to a preliminary review of the system to obtain an understanding of the control environment and the flow of transactions through the accounting system. Because the Company is so small that it is not feasible to have an adequate internal control system, my study and evaluation of the internal accounting controls did not extend beyond this preliminary review phase. Accordingly, I do not express an opinion on the system of internal accounting control taken as a whole. However, I noted no matters involving internal accounting control, including control activities for safeguarding securities that I consider to be a material weakness as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe the Company's practices and procedures were adequate at December 31, 2008, to meet the SEC's objectives.

During my examination, I also examined the J.V. Delaney & Associates Anti-Money Laundering (AML) Program. It appears from my review that the proprietorship's AML Program conforms to the requirements of the NASD.

This report is intended solely for the information and use of the proprietor, the SEC, and other regulatory agencies that rely on rule 17a-5(g) under the Securities and Exchange Act of 1934 in their regulation of registered broker dealers, and is not intended to be and should not be used by anyone other than these specified parties.
